BREAKDOWN · OTHER LAYOUTS

Two ways that keep every scope in view

Right list noted: you cannot see the other scopes, and a long list becomes the long page.

A Scope chips

Same idea as BOL / BOTE chips. Full width below.

C. TRADING P8,942.00

Onsite | Shop

Scope | Scope 2 | Scope 3 · ! | + Add

Scope · 1 day · Sequential

BOL | BOTE | BOCM | PPE | MISC

BOL · Scope

Description	Qty	Amount
Site supervisor	1	2,800

Amber mark = no rows, or a price is behind.

Best when you have a few scopes.

B Scope table

Every scope stays a row. Click one to open it.

C. TRADING P8,942.00

Onsite | Shop

Scope	Days	Amount	
Scope	1	3,882	
Scope 2	2	1,200	
Scope 3	1	860	No rows

Scope · 1 day · Sequential

BOL | BOTE | BOCM | PPE | MISC

BOL · Scope

Site supervisor 2,800

You can see who is empty before you open it.

Better once you pass five scopes.
