BREAKDOWN · SAME SHEETS, ONE SCOPE

The table you already have. It opens under the sub-subtask you click.

C. TRADING P27,600.00

Task 1 / Install piping / Weld joints

1 day · Sequential

BOL | BOTE | BOCM | PPE | MISC

No.	Role / Position	Day	Shift	Qty	Days	Rate/Day	OT	Per Diem	Allow.	Subtotal
1	Welder	Regular	Day	2	1	1,800	0	0	0	3,600
2	Helper	Regular	Day	1	1	1,400	0	0	0	1,400
3	Type item…									

BOL columns are unchanged. Dropdown stays on Role / Position. Currency stays right aligned.

Clicking another chip swaps the table. The columns do not merge.

BOTE

No.	Item Description	Qty	Days	Daily Rate	Subtotal

BOCM

No.	Item Description	Qty	Unit	Unit Cost	Subtotal

PPE

No.	Item Description	Qty (pax)	Unit Cost	Subtotal

MISC

No.	Item Description	Qty	Unit	Unit Price	Total

MISC still has parts A–E under its own table. Shop still adds kW, Hrs/Day, and electricity on BOTE.

TASKS
